FIXTURES AND FABRICATIONS

STANWOOD offers a complete solution to your high alloy fixture and fabrication needs. With 50 years of experience serving the Heat Treat Industry, we will supply to you either a cast and/or wrought product, delivered with the latest engineering, manufacturing and quality techniques. Using the knowledge from our extensive application files, our broad engineering skills, the certified abilities of our shop employees and the latest computer aided design techniques, STANWOOD delivers a dependable, high quality fabrication at a very competitive price.

If you need a salt pot, muffle, part fixture, corrugated box or other specialized fabrication give STANWOOD an opportunity to meet your requirement. A few examples of our work are pictured here.

Ask your STANWOOD representative for assistance. We want your business.
